

## PPA Scholarship Application Cover Sheet

### Information regarding applying for a Plastics Pioneers Association Scholarship:

Thank you for considering an application for a PPA scholarship. Attached to this cover sheet is an application to compete for one of those Scholarships.

This scholarship is intended for undergraduate students studying (majoring in) fields that apply to the plastics and polymer industries. The applicant may be majoring in any Plastics/Polymer-related field—engineering, chemistry, chemical engineering, physics, business management, etc.--as long as his/her intent at the time of the application submission is to have a career in a plastics/polymer related field. The applicant must be a US citizen, and must be attending a four-year college or university in a baccalaureate program.

For your information, the applications are judged on several dimensions, among which are:

- Year in school
- Cumulative Grade Point Average (based on the US standard 4.0 scale)
- Financial need
- Applicant's School Activities, Community Activities, Honors and Achievements
- An essay by the applicant discussing his/her pertinent background, his/her interest in plastics/polymers and his/her intent relative to a plastics/polymer related career, *e.g.* why the applicant is applying, why he/she believes he/she is qualified, and his/her career vision. The essay will be reviewed for both content and form.
- Applicant's experience with or in the field of plastics/polymers, especially in hands-on experiences. "Hands-on" may include, but is not limited to, polymer/plastics laboratory work, processing experience, plastics part design experience, etc.
- Applicant's stated career intent relative to plastics/polymers
- Three letters of recommendation, two from teaching staff who are very familiar with the applicant's academic work and one from a community member (a non-relative) who knows the applicant well: former employer, religious leader, scout leader, volunteer activity supervisor, etc., who can attest to the applicant's character.
  - Note: We particularly look in the recommendations for information about the applicant that we might not know from the other application documents (transcripts, essay, application form).

Once received, the applications are judged by individuals who were or are professionals in the fields of plastics and/or polymers, or who are or were educators in those areas.

Those applicants who are selected to receive the scholarships will be notified and asked to complete additional documentation. Once all the documentation is received, the funds are then sent to the institution, with a cover letter identifying the recipient. Separate copies of the transmittals are sent to the applicant.

We wish all applicants good luck in the process, and we look forward to seeing all applicants as strong participants in a great industry.

## 2018-2019 SCHOLARSHIP APPLICATION

The Plastics Pioneers Association offers \$3,000 scholarships to undergraduate students who are committed to becoming "hands-on" workers in the plastics industry – students who are dedicated to careers as plastics technicians or engineers.

### GENERAL ELIGIBILITY REQUIREMENTS

1. Applicants must be full-time undergraduate students in a four-year college.
2. Applicants must be majoring in courses that are beneficial to the plastics industry/polymer industry.
3. Applicants must be in good academic standing with their schools.
4. Financial need of applicants will be considered for most scholarships.
5. Applicants must be U.S. citizens.

### HOW TO APPLY

Applicants must complete this application and return it to the Plastics Pioneers Association at the address below by March 26, 2018. The application submitted must include:

1. A completed application form, including a separate "headshot" type photo. A good cellphone photo with a plain background will suffice, as will a more formal photo. This photo will be used in our internal publications once recipients are selected. No judges, other than the Chair, will see the photo until judging is complete.
2. Three letters of recommendation: two from teachers or school officials who know you well, and one from someone else (former employer/supervisor, religious leader, etc.) who also knows you well.
3. A high school and/or college transcript covering the past two school years.
4. A listing of (a) school activities, (b) community activities, (c) honors and achievements, and (d) employment history, particularly in the plastics/polymer industry.
5. A one- to two-page statement stating what your background and experiences are with plastics and polymers, your qualifications, and your educational and career goals in the plastics/polymer industry.
