The Objectives of the Plastics Pioneers Association shall be to recognize achievement in the fields of plastics/polymer science, engineering, technology and management; to support industry-wide educational programs; and to promote the study and improvement of plastics, science engineering, and technology. These objectives shall be achieved by:

- Contributing funds from its treasury to educational programs that the Association deems worthy of support;
- Administering a scholarship program for deserving students in the study of plastics/polymer science, engineering, technology, and management, leading to a career in the plastics industry.
